

Modules	Lectures	Institute Abbr.	1st Semester		2nd Semester		3rd Semester		4th Semester		Requirements	
			SWS	CP	SWS	CP	SWS	CP	SWS	CP		
Plates and Shells	Plates and Shells	LBB	5	8			(5)	(8)			Shell No. 1: At least 36 Credit Points (see § 4)	
Nonlinear Structural Analysis	Nonlinear Structural Analysis	LBB			5	8			(5)	(8)		
Continuum Mechanics	Continuum Mechanics	IFAM			5	8			(5)	(8)		
Mechanics of Materials	Mechanics of Materials	IFAM	5	8			(5)	(8)				
Finite Elements in Fluids	Finite Elements in Fluids	CATS	(4)	(6)			3	6				
Numerical Methods in Structural Mechanics and Dynamics	Numerical Methods in Structural Mechanics and Dynamics	LBB/IFAM	(1)	(12)			1	12			Shell No. 2: At least 48 Credit Points (see § 4) including CP surpluses from the first shell.	
Plasticity and Fracture Mechanics	Plasticity and Fracture Mechanics	IFAM			3	6			(3)	(6)		
Structural Dynamics	Structural Dynamics	LBB	(5)	(8)			5	8				
Finite Element Technology	Finite Element Technology	IFAM			3	6			(3)	(6)		
Selected Topics of Inelasticity Theory	Selected Topics of Inelasticity Theory	IAM	(4)	(6)			4	6				
Porous Media Mechanics	Porous Media Mechanics	IAM			4	6			(4)	(6)		
Molecular Mechanics and Multiscale Modelling of Materials	Molecular Mechanics and Multiscale Modelling of Materials	IAM	4	5			(4)	(5)				
Biomechanics and Mechanobiology for Biological Soft Tissues	Biomechanics and Mechanobiology for Biological Soft Tissues	IAM			2	5			(3)	(5)		
Matrix and Tensor Calculus	Matrix and Tensor Calculus	IFAM	3	5			(3)	(5)				
Non-linear Finite Element Methods in Civil Engineering	Non-linear Finite Element Methods in Civil Engineering	IFAM / LBB			3	4			(3)	(4)		
Structural Steel III	Structural Steel III	STB	5	8			(5)	(8)				
Timber Structures I	Timber Structures I	STB	3	4			(3)	(4)				
Brittle-Matrix Composite Structures: Modeling and Design Methods	Brittle-Matrix-Composite Structures: Modeling and Design Methods (2 Exams: 2 CP + 6 CP)	IMB			3	8			(3)	(8)		
Multiscale Techniques	Multiscale Techniques	IGPM	Irregular occurrence, 9 CP									
Multiscale Techniques I	Multiscale Techniques I	IGPM	Irregular occurrence, 5 CP									
Finite Element and Volume Methods	Finite Element and Volume Methods	IGPM	Irregular occurrence, 9 CP									
Finite Element and Volume Methods I	Finite Element and Volume Methods I	IGPM	Irregular occurrence, 5 CP									
Finite Element and Volume Methods II	Finite Element and Volume Methods II	IGPM	Irregular occurrence, 5 CP									
Advanced Structural Analysis	Advanced Structural Analysis	LBB					4	8				
Isogeometric Analysis	Isogeometric Analysis	CATS			3	6			(3)	(6)		
Numerical Methods in Mechanical Engineering	Numerical Methods in Mechanical Engineering	IAM	5	7			(5)	(7)				
Numerical Methods for Fluid-Structure Interaction	Numerical Methods for Fluid-Structure Interaction	CATS	(3)	(4)			3	4			Shell No. 3: Variable (see § 4)	
Structural Control and Health Monitoring	Structural Control and Health Monitoring	LBB	(2)	(3)			2	3				
Building Performance Simulation	Building Performance Simulation (2 Prüfungsleistungen: 3 CP + 3 CP)	E3D			3	6			(3)	(6)		
Building Information Modeling	(Geo)Datenbanken	GIA	3	4			(3)	(4)				
	2D/3D-Bauwerksinformationssysteme		2	3					(2)	(3)		
Multiscale Techniques II	Multiscale Techniques II	IGPM	(3)	(5)			3	5				
Timber Structures II	Timber Structures II	STB			4	8			(4)	(8)		
Numerical Methods	Numerical Methods	LBB	2	4			(2)	(4)				
Parallel Computing Methods in Computational Mechanics	Parallel Computing Methods in Computational Mechanics	CATS			3	4			(3)	(4)		
Mathematical Models in Science and Engineering	Mathematical Models in Science and Engineering	MATHCCES			4	6			(4)	(6)		
Pavement Dynamics	Pavement Dynamics	ISAC					4	6				
Innovation & Diversity	Innovation & Diversity	GDI	2	4			(2)	(4)				
Fremdsprache - wissenschaftlich*	Fremdsprache - wissenschaftlich	SZ (Sprachzentrum)	2	3	(2)	(3)	(2)	(3)	(2)	(3)		
German Language Course*	German Language Course	SZ (Sprachzentrum)	4	6	(4)	(6)	(4)	(6)	(4)	(6)		
Wahlmodul	Wahlmodul	PA		8		(8)		(8)		(8)		
Relevant Additional Subjects for Studies Abroad - for non-German specialisations		Variabel		10		(10)		(10)		(10)		
Master Thesis									24	24		
(Master Thesis)								(12)	(12)	(24)		
Credits to choose in accordance with the shell concept										96		
Total										120		

*Only one of the modules "Fremdsprache - wissenschaftlich" and "German Language Course" can be chosen.
