Mentoring Program TANDEMplus for women Postdocs

supports you

• to strategically plan and shape your career
• to develop your potential and individual key competences
• in the acquisition of knowledge about structure, processes and informal rules in science

The one-year cycle program in English consists of three modules:

• One-to-one mentoring by an individually selected personal mentor
• (Online-)Trainings for advanced professional and personal development
• Networking events dedicated to career-related topics
